BODY POWDER
White Clay 1c or 8oz
Corn Starch 1c or 8oz

Mix powders through a sieve. Sprinkle Essential Oils over this. Let it sit for 5 minutes then sift 4 times. Test the powder on your skin before placing in shakers.

AND... FOR YOUR PETS
Prepare powder above and add the following oil blend:

Essential Oil of Cedarwood
Essential Oil of Orange
Essential Oil of Eucalyptus

BODY LOTION
Sweet Almond Oil 1c
Lanolin Anhydrous 3T
Jojoba Oil 2T
Beeswax 1/2c
Water or 2/3c

Rosewater (double water if lighter cream is required)
Pure Essential Oils – Chamomile, Immortelle, Jasmine, Lavender, Neroli, Rose, Sandalwood, Yarrow are all anti inflammatory and soothing for the facial skin. For an antiseptic lotion add New Zealand and Australian Tea Tree.

To place an order call 503.244.0726 or click www.apothecary-shoppe.com
Melt the Lanolin, Jojoba, Sweet Almond Oil, and Beeswax in a bowl over simmering water. Do not place lanolin and oil directly on the heat as it can ignite. Pour into a jug and place in freezer until a hardened edge appears around the surface. Test with your finger. A coating should cover your finger when it is ready. This takes about 15 minutes.

Heat the water or rose water to a tepid temperature. Have the tepid water or rose water in the blender. Add the essential oils then while blending at high speed start to pour the mixture from the freezer in slowly and watch for emulsifying. It turns white quickly and once this happens stop pouring. Do not turn blender back on but continue to stir with a spoon.

1/4c Powdered Roses/Lavender/Peppermint (You choose)
Essential Oil Optional

Mix together then add water to make a paste. Rub into face and scrub body. Wash off. Add additional base oil for an oily scrub.

**DRY SKIN BRUSHING**

Dry skin brushing is such a simple way to keep the skin soft, smooth and healthy. It removes the layers of dead cells and stimulates the pores to eliminate toxic products. It tones the muscles, redistributes fatty deposits, breaks up areas of cellulite and increases and stimulates circulation, especially of the small capillaries under the skin.

To place an order call 503.244.0726 or click www.apothecary-shoppe.com
Use a natural bristled brush, preferably a long handled bath brush. Note that it must be of natural bristles - nylon tears the skin and disturbs the electro-magnetic balance of the skin.

Take your brush and start in small circles brushing all over the body. Do not brush the face and any tender or inflamed areas but do brush the soles of the feet. It may feel very rough to begin with so just use gentle pressure until you become used to the sensation. Dry skin brush at least once a day, followed by a hot and then cold shower. If this is too traumatic for you just finish off with a shower at usual temperature. The hot and cold temperature is to further stimulate circulation but is not vital.
